1. GENERAL NOTES

1.1. All areas to be cleared of any nuisance or obstructions prior to the commencement of contract. All trees are to be removed and disposed of off site in accordance with existing Council guidelines. The contractor is responsible for obtaining permission from the Local Government before carrying out any works. The contractor shall ensure that all permits are obtained and maintained at all times.

1.2. The work will be performed in accordance with the requirements of the Building Act 1994 (Vic) and the Building Code of Australia 2004 (SA/NSW/QLD) and all relevant Australian Standards.

1.3. The contractor is to provide verbal and written notice to the adjacent property owners and residents prior to the commencement of any work.

1.4. The contractor is to ensure that all council and state requirements are met before the commencement of any work.

1.5. The contractor is to ensure that all necessary permits are obtained before the commencement of any work.

1.6. The contractor is to ensure that all necessary safety precautions are taken before the commencement of any work.

1.7. All necessary permits are to be obtained before the commencement of any work.

1.8. All necessary permits are to be obtained before the commencement of any work.

1.9. All necessary permits are to be obtained before the commencement of any work.

2. SURVEY & SETOUT

2.1. All levels and offsets to be established prior to the commencement of any works.

2.2. All levels and offsets to be established prior to the commencement of any works.

2.3. All levels and offsets to be established prior to the commencement of any works.

3. EARTHWORKS

3.1. All levels and offsets to be established prior to the commencement of any works.

3.2. All levels and offsets to be established prior to the commencement of any works.

3.3. All levels and offsets to be established prior to the commencement of any works.

4. SERVICES & TRENCHING

4.1. All services and works to be performed in accordance with the requirements of the Building Code of Australia 2004 (SA/NSW/QLD) and all relevant Australian Standards.

4.2. All services and works to be performed in accordance with the requirements of the Building Code of Australia 2004 (SA/NSW/QLD) and all relevant Australian Standards.

4.3. All services and works to be performed in accordance with the requirements of the Building Code of Australia 2004 (SA/NSW/QLD) and all relevant Australian Standards.

5. CONCRETE WORKS

5.1. All new concrete works shall be joined into abutting existing concrete with 450mm long Y20 dowel bars @ 600 mm centres.

5.2. All existing concrete works shall be left in place unless otherwise specified.

5.3. All new concrete works shall be left in place unless otherwise specified.

6. TBM'S

6.1. The proposed TBM's shall be re-established by the Licensed Surveyor if found to be missing at the commencement of any works.

6.2. The proposed TBM's shall be re-established by the Licensed Surveyor if found to be missing at the commencement of any works.

6.3. The proposed TBM's shall be re-established by the Licensed Surveyor if found to be missing at the commencement of any works.

7. SITE OF WORKS

7.1. The site of work shall be cleared of any nuisance or obstructions prior to the commencement of any works.

7.2. The site of work shall be cleared of any nuisance or obstructions prior to the commencement of any works.

7.3. The site of work shall be cleared of any nuisance or obstructions prior to the commencement of any works.

8. LOCALITY PLAN

8.1. The locality plan shall be cleared of any nuisance or obstructions prior to the commencement of any works.

8.2. The locality plan shall be cleared of any nuisance or obstructions prior to the commencement of any works.

8.3. The locality plan shall be cleared of any nuisance or obstructions prior to the commencement of any works.

9. SHEET INDEX

9.1. The sheet index shall be cleared of any nuisance or obstructions prior to the commencement of any works.

9.2. The sheet index shall be cleared of any nuisance or obstructions prior to the commencement of any works.

9.3. The sheet index shall be cleared of any nuisance or obstructions prior to the commencement of any works.

10. SERVICE OFFSET TABLE

10.1. The service offset table shall be cleared of any nuisance or obstructions prior to the commencement of any works.

10.2. The service offset table shall be cleared of any nuisance or obstructions prior to the commencement of any works.

10.3. The service offset table shall be cleared of any nuisance or obstructions prior to the commencement of any works.
